Tyler Huynh

Production Assembler

tyler.huynh@email.com ◆ (616) 555-0129 ◆ Grand Rapids, MI ◆ linkedin.com/in/tylerhuynh

Summary

Production assembler with 2 years of mechanical assembly on an automotive seat line running 900 frames a day. Reads schematics and work instructions, checks fit with calipers, and uses hand tools and power tools at takt time with attention to detail at every quality control point.

Experience

Production Assembler

Lakeshore Seating Systems — Grand Rapids, MI — 05/2025 - Present

Tier 1 supplier building seat frames for light trucks and SUVs.

- Install seat track and recliner hardware at a 62-second takt, building about **420** frames per shift.
- Torque fasteners with DC power tools tied to error-proofing, passing 99.8% of joints the first time.
- Verify bracket gaps and hole positions with calipers during hourly quality control checks.
- Run two hydraulic presses to set bushings, logging pressure readings every hour of the shift.

Production Associate

West Michigan Plastics — Wyoming, MI — 09/2023 - 04/2025

Injection molding plant supplying office furniture and appliance parts.

- Trimmed and packed 1,500 molded parts per shift, rejecting short shots and flash against the visual standard.
- Rotated across 4 stations with hand tools and fixtures, covering absences without slowing output.
- Reported 3 recurring mold defects that maintenance fixed, lowering scrap on one press from 4% to 1.5%.
- Measured wall thickness on 20 sample parts a shift with calipers, recording results on the press quality sheet.

Education

High School Diploma

East Kentwood High School

Kentwood, MI

06/2023

Skills

Mechanical Assembly — Hand Tools — Power Tools — Calipers

Quality Control — Hydraulic Presses — Schematics — Manual Dexterity
