Palantir Gotham Analyst Training

Palantir Technologies • 09/2024

SUMMARY

All source analyst with 6 years of all-source analysis for Marine Corps and combatant command customers. Fuses HUMINT, SIGINT, GEOINT and OSINT reporting in Palantir and other databases, writes products to ICD 203 standards and briefs senior leaders. Comfortable in IC and combatant command environments, with an active TS/SCI clearance and sharp attention to detail.

EXPERIENCE

All Source Analyst

Bayshore Defense Analytics • MacDill AFB, FL
07/2025 - Present

Defense contractor supporting a combatant command intelligence directorate.

- Author 10 all-source assessments a quarter on militant networks, each meeting ICD 203 analytic tradecraft standards.
- Combine HUMINT, SIGINT and GEOINT reporting in Palantir to map **45** network members, their roles and their links.
- Present threat updates to a general officer twice a week, answering follow-up questions within 24 hours.
- Coordinate with 3 partner agencies to close conflicting assessments before publication.

Junior All Source Analyst

Gulf Gate Intelligence Services • Tampa, FL
08/2024 - 06/2025

Small business providing analysts to special operations customers.

- Researched OSINT and classified databases to update 60 target folders for a special operations task force.
- Drafted daily intelligence summaries in Microsoft Office tools, read by 150 staff each morning.
- Tracked 300 reporting leads in a shared database, cutting duplicate requests to collectors by 25%.
- Supported 2 command planning exercises with threat timelines, red-team input and mapped activity overlays.

Intelligence Specialist (0231)

U.S. Marine Corps • Camp Lejeune, NC • 08/2020 - 07/2024
Analyst in an infantry regiment intelligence section, including one overseas deployment.

- Produced 200+ intelligence summaries and threat briefs for a 3,500-Marine regiment and its battalion commanders.
- Analyzed patrol and HUMINT debrief reports during a 7-month deployment, flagging 4 emerging threats to the staff.
- Built terrain and threat overlays for 15 field exercises using geospatial tools and imagery.
- Trained 5 new Marines on reporting formats, database searches and classification marking.
