Columbus, OH (614) 555-0182 marcus.bell@email.com linkedin.com/in/marcusbell

SUMMARY

Ambulance driver with 19 months of emergency and non-emergency transport experience in Columbus, holding a clean Ohio driver's license and EMT-Basic certification. Completed 1,400+ patient transports with zero preventable vehicle incidents. Known on the crew for clear communication with dispatch and steady interpersonal skills with anxious patients and families.

SKILLS

Emergency Vehicle Operation • Patient Transport • Vehicle Inspection • GPS Navigation • CPR
Stretcher and Stair Chair Use • Infection Control • Dispatch Radio Procedures • Communication • Interpersonal Skills

EXPERIENCE

Ambulance Driver 03/2025 - Present

Buckeye Medical Transport Columbus, OH

Private ambulance service running 22 units for hospital discharges, dialysis runs and 911 mutual aid.

- Drive basic life support units on **1,400+** patient transport calls with zero preventable accidents under emergency vehicle operation rules.
- Complete a vehicle inspection of lights, sirens, oxygen tanks and the stretcher at every shift start, keeping unit readiness at 98%.
- Plan routes with GPS navigation and the dispatch radio, averaging 11-minute arrival times on priority calls across Franklin County.
- Transfer patients up to 300 lbs with the power stretcher and stair chair beside the EMT partner, with no lift injuries.
- Perform CPR and bleeding control with the partner on 6 cardiac and trauma calls before the paramedic intercept arrived.

Patient Transporter 06/2023 - 02/2025

Scioto Valley Medical Center Columbus, OH

Part-time role at a 340-bed community hospital while completing the EMT course.

- Moved 40+ patients per shift by wheelchair and stretcher between inpatient units, imaging and the discharge lobby.
- Disinfected wheelchairs and stretchers after every patient under the hospital infection control checklist, passing 4 unit audits.
- Called nurses and family members with transfer times, cutting average imaging delays by about 10 minutes.
- Logged every move in the transport tracking system so charge nurses could see patient locations in real time.
