Lucas Bergstrom

Analytics Engineer

lucas.bergstrom@email.com (303) 555-0139 Denver, CO linkedin.com/in/lucasbergstrom

Summary

Analytics engineer with 4 years of experience, now owning the dbt and Snowflake layer for an outdoor gear rental and subscription company. Builds tested SQL models, Airflow schedules and Looker explores that let 120 analysts and managers answer questions without filing a ticket. Ships every change through Git and CI/CD and has cut warehouse spend by 28%.

Experience

Analytics Engineer

03/2024 - Present

Front Range Gear Co. Denver, CO

Online outdoor gear rental and subscription company with 200,000 members.

- Own **180** dbt models in Snowflake covering orders, subscriptions and marketing, each with tests and documentation.
- Run Airflow DAGs that load 14 source systems nightly, keeping data fresh by 6 a.m. on 99% of days.
- Build Looker explores and dashboards for finance and marketing, cutting ad hoc data tickets by 45%.
- Cut Snowflake spend by 28% by moving heavy models to incremental builds and resizing 3 warehouses.

Data Analyst

07/2022 - 02/2024

Pikes Peak Credit Union Colorado Springs, CO

Credit union with 85,000 members and 12 branches.

- Wrote SQL and Python to analyze loan and deposit data for 85,000 members across 12 branches.
- Built 10 Tableau dashboards on loan pipeline and branch traffic for the lending and retail teams.
- Moved 25 manual SQL reports into Git-tracked scripts, ending conflicting copies of the same report.
- Defined one member count metric with finance and marketing, settling a 3-way dispute over the numbers.
