> EXPERIENCE

Anesthesia Technician 01/2023 - Present
Capitol Valley Medical Center Sacramento, CA
Level II trauma center with 30 ORs and 4 off-site anesthesia locations.

- Check and calibrate anesthesia machines, monitors and suction in 30 ORs before first cases each day.
- Set up arterial lines, central lines and rapid infusers for 15 to 20 cardiac and trauma cases a week.
- Respond to difficult airway calls with video laryngoscopes and fiberoptic scopes, arriving within **3** minutes.
- Run blood gas and ACT point-of-care tests and log quality controls with 100% compliance on review.

Anesthesia Technician 05/2021 - 12/2022
Sierra Foothills Hospital Roseville, CA
200-bed hospital with 10 ORs.

- Decontaminated and sterilized laryngoscope blades and reusable airway equipment for 10 ORs.
- Built Excel par reports for anesthesia supplies, cutting expired stock waste by **$18K** a year.
- Stocked 14 anesthesia carts every night against a standard list.
- Reported 25 equipment faults to biomedical engineering with full documentation.

Central Supply Technician 07/2019 - 04/2021
American River Surgery Center Sacramento, CA
Outpatient surgery center with 6 ORs.

- Ordered and received supplies for 6 ORs using Outlook and the inventory system.
- Delivered sterile supplies to rooms on a 2-hour cycle.
- Rotated stock by expiration date across 3 storage rooms.
- Counted inventory monthly with 98% accuracy.
