

Hannah Meyer

Animal Care Specialist Durham, NC · (919) 555-0122 · hannah.meyer@email.com · linkedin.com/in/hannahmeyer

SUMMARY

Animal care specialist with 5 years in accredited research facilities, providing daily animal husbandry for 2,000+ rodent cages and a rabbit colony. Performs health checks, cage changing and sanitation under IACUC protocols and strict biosecurity rules, and holds AALAS LAT certification.

EXPERIENCE

Animal Care Specialist 02/2023 - Present

Triangle BioResearch Labs Durham, NC

Preclinical research facility with barrier rodent housing.

- Provide husbandry for **2,000+** mouse and rat cages across 6 barrier rooms.
- Complete daily health checks and report 15-20 cases a month to the veterinary staff.
- Train 4 new technicians on rodent handling, gowning and biosecurity entry sequences.
- Document census, feed and water checks with zero findings at 2 accreditation site visits.

Animal Care Technician 06/2021 - 01/2023

Piedmont Research Animal Center Raleigh, NC

Academic research animal facility housing rodents and rabbits.

- Handled cage changing for 300 cages a day and loaded the tunnel washer for 4 rooms.
- Fed and enriched a 40-rabbit colony, recording body weights every week.
- Sanitized racks and rooms on a 2-week rotation, passing 100% of ATP swab tests in 2022.
- Monitored 15 post-surgical rodents a week under study-specific IACUC protocols and reported pain scores.

Kennel Assistant 09/2019 - 05/2021

Oak City Animal Hospital Raleigh, NC

Part-time role at a 3-doctor small animal hospital.

- Restrained 20+ dogs and cats a shift for exams, vaccines and blood draws.
- Disinfected 25 kennels and the isolation ward on every evening shift.
- Recorded feeding, medication and elimination notes for 10 hospitalized patients a shift.
