SUMMARY

Master of Architecture student at The University of Texas at Austin, graduating 05/2027, with 13 months of design work at an architecture firm and a millwork shop. Models in Revit and AutoCAD, produces Enscape renderings and handles physical model making for studio reviews. Logging AXP hours toward licensure and quick to turn around redlines.

EXPERIENCE

Architecture Intern06/2026 - Present

Colorado River Design CollaborativeAustin, TX
30-person firm designing multifamily housing and civic buildings; part-time during the fall semester.

- Model **3** floors of a 180-unit multifamily project in Revit, including unit plans, wall types and door schedules.
- Update 40+ construction documents sheets a week in AutoCAD from project architect redlines.
- Produce Enscape renderings, finished in Photoshop, and SketchUp massing studies for 2 library renovation presentations.
- Research building codes for egress and accessibility, marking up 12 plan sheets with IBC and TAS notes.

Design Assistant09/2025 - 05/2026

Eastside Millwork & DesignAustin, TX
Part-time role at a custom cabinetry and millwork shop.

- Drew shop drawings in AutoCAD for 25 custom cabinetry and millwork packages.
- Built 3D models in Rhino and SketchUp for client reviews, cutting revision rounds from 3 to 2.
- Measured existing kitchens and baths on 15 site visits and turned field notes into as-built plans.
- Cut and assembled 6 physical study models in basswood and chipboard for client and showroom reviews.
