Horry-Georgetown Technical College

Myrtle Beach, SC

Golf and Sports Turf Management

SUMMARY

Assistant golf course superintendent with 7 years in golf course maintenance at private 18- and 36-hole clubs in the North Carolina Sandhills. Runs daily crew assignments, irrigation systems, and pest control and fertilizer programs on bentgrass greens and Bermuda fairways, and holds an NC commercial pesticide license.

EXPERIENCE

Assistant Golf Course Superintendent 01/2023 - Present

Sandhill Ridge Golf Club Pinehurst, NC

Second in command for a private 36-hole club with 900 members.

- Direct a crew of 28 on daily maintenance of tees, fairways and greens across 36 holes.
- Manage the central irrigation system and moisture readings, cutting summer water use **15%** while holding green speeds at 11.5.
- Plan herbicides, fungicides and pest control treatments under the state license, keeping spray records audit-ready.
- Build fertilizer and soil conditioner programs from soil tests, staying within a \$310K chemical budget 3 years running.

Spray Technician 06/2019 - 12/2022

Carolina Highlands Golf Club Southern Pines, NC

Spray technician and crew trainer at a private 18-hole club.

- Calibrated sprayers and spreaders weekly and mixed herbicides and fertilizers to label rates for 18 holes.
- Installed 2,800 feet of drainage tile on 6 fairways, ending standing water after 2-inch rains.
- Trained 12 seasonal crew members a year on reel mower setup and bunker standards.
- Scouted greens daily for dollar spot and pythium, catching outbreaks before they spread past 2 greens.

CERTIFICATES

Commercial Pesticide Ground Applicator License, Category L (Ornamentals and Turf)

08/2019

North Carolina Department of Agriculture
