Visual Field Testing • Electronic Health Records • Patient Education • Communication

EXPERIENCE

Associate Optometrist

07/2025 - Present

Scioto Family Eye Care

Columbus, OH

Associate doctor in a 3-optometrist private practice with an in-house optical, 4 exam lanes and a medical eye care schedule.

- Perform **18** comprehensive eye exams a day, including refraction, binocular vision testing, tonometry and dilated fundus exams.
- Complete about 40 soft, toric and multifocal contact lens fittings a month, with a one-week comfort check for each patient.
- Manage 70 glaucoma suspects with OCT and visual field testing, sending about 6 patients a month to surgeons.
- Teach patients about digital eye strain and diabetic eye disease at every visit; annual recall return rose from 58% to 71%.

Optometry Extern

01/2025 - 04/2025

Great Lakes Ocular Disease Center

Cleveland, OH

Final-year clinical rotation in a referral center for glaucoma, retina and cornea patients from across northeast Ohio.

- Examined 250+ patients with glaucoma, diabetic retinopathy and macular degeneration under the supervision of attending optometrists.
- Ran OCT, fundus photography and gonioscopy for 12 to 15 patients a day, logging results in electronic health records.
- Delivered pre- and post-operative care to 30 cataract surgery patients, from the first consult to the final refraction.
- Prescribed glasses and contact lenses for 90 primary care patients during weekly general clinic shifts.
