SUMMARY

Automotive body repairer with 6 years fixing collision and rust damage on cars and trucks in western Pennsylvania. Straightens frames, welds in rocker panels and floor pans, and finishes body filler work ready for paint with attention to detail. Clear communication skills with customers and insurance adjusters. ASE B3 certified.

EXPERIENCE

Automotive Body Repairer 05/2022 - Present

Three Rivers Auto Body Pittsburgh, PA

Family-owned body shop with 8 bays handling collision and rust repair.

- Complete rust repair on **10+** vehicles a month, welding in new rocker panels, floor pans and wheel arches.
- Operate a hydraulic frame machine for frame straightening, restoring factory dimensions on 50+ jobs a year.
- Deliver paint-ready panels after body filler and block sanding, passing the painter's check 97% of the time.
- Review repair options and costs with customers before work starts, keeping estimate disputes under 2%.

Body Technician 06/2020 - 04/2022

Allegheny Collision Works McKeesport, PA

Collision shop with 12 bays serving the Mon Valley.

- Replaced bolted panels, bumpers and lamps on 25+ light-damage jobs a month.
- Completed glass replacement on 4-6 vehicles a month after collision damage, with no leak comebacks.
- Maintained hand tools, power tools and the shop air system, cutting equipment downtime to under 1 day a quarter.
