Registered Behavior Technician (RBT)

Behavior Analyst Certification Board

2021

SUMMARY

Licensed Behavior Specialist with 5 years of applied behavior analysis and behavior management work for children with autism in Pennsylvania IBHS programs. Completes functional behavior assessments, writes behavior intervention plans, and trains behavior technicians and families, with steady problem solving and close collaboration with schools and therapists.

EXPERIENCE

Behavior Specialist

Schuylkill River Behavioral Health • Philadelphia, PA

07/2023 - Present

IBHS provider serving children in homes, schools and community settings across Philadelphia.

- Complete functional behavior assessments for a caseload of **12** children and finish treatment plans within 30 days.
- Design behavior intervention plans that cut elopement and aggression by an average of 60% in 6 months.
- Train 8 behavior technicians through monthly field observations, keeping staff training fidelity above 90%.
- Coordinate with teachers, speech therapists and psychiatrists at 10 schools on shared behavior goals.

Behavioral Health Technician

Fairmount Children's Services • Philadelphia, PA

06/2021 - 06/2023

School-based behavioral health program for children with autism and ADHD.

- Implemented behavior plans for 3 students a year in K-5 classrooms under BCBA supervision.
- Handled daily data collection for ABC and frequency data and graphed weekly progress in Excel for the clinical team.
- Reduced one student's classroom removals from 4 a week to 1 within a semester.
