SUMMARY

BIM coordinator with 5 years of BIM coordination on hospital, office and lab projects up to \$250M. Runs clash detection in Navisworks, manages Revit and AutoCAD models from 12 trades, and tracks shop drawing reviews in Bluebeam and Autodesk cloud tools. Pairs clear communication skills with practical problem-solving skills in coordination meetings.

EXPERIENCE

BIM Coordinator	03/2023 – Present
Puget Sound Builders	Seattle, WA

General contractor of 600 employees building healthcare, tech and mixed-use projects.

- Lead weekly clash detection for a **\$250M** hospital tower, clearing 4,000 clashes before overhead install.
- Write the BIM execution plan, file naming rules and model exchange schedule for 12 trade partners.
- Review shop drawings in Bluebeam against the Revit model and return markups within 3 days.
- Train superintendents to open models on tablets in Autodesk Docs, growing field use to 30 people.

BIM Modeler	06/2021 – 02/2023
Cascade Mechanical Contractors	Tacoma, WA

Mechanical and plumbing contractor serving commercial projects.

- Modeled HVAC and plumbing systems in Revit and AutoCAD for 8 office and lab projects.
- Exported spool sheets for prefabrication, moving 25% of pipe assembly into the shop.
- Tracked RFIs and model changes in Excel for 2 project engineers.
- Scanned 6 existing mechanical rooms with a laser scanner and modeled them for retrofit work.

EDUCATION

Bachelor of Science	06/2021
University of Washington	Seattle, WA
Construction Management
