SUMMARY

Biologist I with nearly 2 years of field experience across the Sacramento Valley, surveying 35+ project sites a year for an environmental consultant. Conducts biological surveys, habitat assessment and construction monitoring, and turns field data collection in ArcGIS and GPS into clear technical reports. Holds a valid driver's license and works safely in rough terrain.

EXPERIENCE

Biologist I

01/2025 - Present

Delta Oak Environmental Consulting

Sacramento, CA

Consulting firm serving utilities, Caltrans contractors and land developers in Northern California.

- Conduct pre-construction surveys on **35** utility and road sites a year for nesting birds, burrowing owls and special-status plants.
- Collect field data with GPS and ArcGIS Field Maps, then clean and check each dataset within 5 days for project leads.
- Draft technical report sections and survey memos for 20+ projects, most approved by senior biologists with only minor edits.
- Monitor construction crews for permit compliance, documenting 12 exclusion fence repairs before work was allowed to resume.

Seasonal Biological Technician

04/2024 - 10/2024

Cache Creek Habitat Trust

Woodland, CA

Seasonal restoration monitoring role with a regional land trust.

- Surveyed 40 acres of restored riparian habitat each week, recording native plant cover, recruitment and invasive species spread.
- Identified more than 150 native and invasive plant species in the field and keyed unknown specimens for the staff botanist.
- Entered transect data into Microsoft Excel and checked every sheet against field forms, catching 30+ entry errors.
- Maintained GPS units, traps and field gear for a crew of 5 and logged weekly vehicle safety inspections.
