Summary

Boiler technician with 6 years servicing commercial and industrial boilers across northeast Ohio for schools, hospitals and factories. Performs burner tuning with combustion analysis, repairs steam and hydronic systems, wires boiler controls, and works independently on service calls with clear communication to building staff.

Experience

Boiler Technician

Lake Erie Boiler & Mechanical — Cleveland, OH — 02/2023 - Present

Field service technician for a commercial boiler contractor.

- Maintain **180** commercial boilers a year on maintenance contracts for schools, hospitals and factories.
- Tune burners with combustion analysis, cutting customer gas use by an average of 8% per boiler.
- Repair steam traps, condensate pumps and hydronic piping, closing 90% of calls on the first visit.
- Diagnose flame safeguard and controls wiring faults on boilers from 12 manufacturers.

HVAC Service Technician

Cuyahoga Comfort Systems — Parma, OH — 06/2020 - 01/2023

Service and install technician for commercial heating systems.

- Installed and started up **40** high-efficiency condensing boilers in commercial buildings.
- Performed preventive maintenance and hydro tests on 60 hot water and low-pressure steam systems.
- Ran gas piping and venting to code for boiler replacements and passed every city inspection.
- Documented readings and parts on service tickets with attention to detail, so billing went out within 24 hours.
