Danielle Okafor

DATA ANALYST

Columbus, OH (614) 555-0182 danielle.okafor@email.com linkedin.com/in/danielleokafor

SUMMARY

Data Analyst who moved into analytics after nearly 6 years in warehouse inventory control, now doing data analysis for a 3-site distribution network. Writes SQL and Python to pull operational data and turns it into Tableau and Power BI dashboards that shift managers use every day, reconciling each number back to the source system.

SKILLS

SQL • Python • Tableau • Excel • Power BI • Data Analysis • Data Visualization • Data Modeling
Attention to Detail • Communication

EXPERIENCE

Data Analyst 04/2025 - Present

Buckeye Freight Distribution Columbus, OH

Internal move from the inventory team into the 5-person analytics group of a regional third-party logistics company.

- Write SQL queries against the warehouse management system to report pick rates, dock times and inventory accuracy for **3** sites.
- Build Tableau dashboards for 14 shift managers, replacing 6 manual Excel reports and saving about 9 hours of prep a week.
- Automate weekly cycle-count variance checks in Python, flagging mismatches above 2% before they reach the monthly close.
- Design a data modeling layer for labor and volume tables so data visualization requests now ship in 2 days instead of 5.

Inventory Control Supervisor 06/2019 - 03/2025

Buckeye Freight Distribution Columbus, OH

Second-shift supervisor in a 400,000 sq ft warehouse handling consumer goods for 20 retail clients.

- Supervised 7 inventory clerks and kept location accuracy at **99.2%** across more than 40,000 active SKUs.
- Reconciled cycle counts against system records in Excel, tracing shrink to its root cause with close attention to detail.
- Created the site's first Power BI shrink report, which regional leadership adopted for all 3 warehouses in 2024.
- Trained 20+ new hires on scanner workflows and receiving procedures, cutting receiving errors by 30% in one year.
