SUMMARY

Certified Lactation Counselor (CLC) with 4 years of experience providing evidence-based breastfeeding support in pediatric clinic and community settings. Skilled in newborn weight assessment, latch evaluation, and developing personalized feeding plans. Committed to empowering mothers with practical tools and compassionate guidance through every stage of the breastfeeding journey.

EXPERIENCE

- Certified Lactation Counselor (CLC)** Mar 2021 - Present
Seattle Children's Pediatric Clinic Seattle, WA
Provide outpatient breastfeeding support integrated within a busy pediatric primary care practice.
- Conduct 20 lactation consultations per week for newborns 0-6 weeks, maintaining 96% family satisfaction score
 - Collaborate with 12 pediatricians to create individualized feeding plans for infants with weight gain concerns, reducing failure-to-thrive diagnoses by 24%
 - Developed a same-day lactation intake protocol reducing wait times from 5 days to same-day access
 - Teach monthly prenatal breastfeeding class series attended by 45 expectant families per cohort
- Breastfeeding Support Volunteer** Jan 2020 - Feb 2021
La Leche League International Seattle, WA
Facilitated peer support meetings for breastfeeding mothers in the community.
- Facilitated bi-weekly meetings supporting 15-25 breastfeeding mothers per session
 - Logged 500+ volunteer hours toward CLC certification clinical requirement
