Summary

Certified Medication Technician with 5 years in patient care, giving medications to 28 residents per shift on a long-term care unit. Trained in medication administration, insulin administration, accurate documentation in the EHR system and the side effects of common medications, and acts quickly in emergency situations.

Experience

Certified Medication Technician 09/2022 - Present
Riverview Terrace Skilled Nursing Florissant, MO

- Administer oral, topical and inhaled medications to **28 residents** per shift with no reportable errors since 2023.
- Perform insulin administration by sliding scale for 9 diabetic residents after blood sugar checks and an order review.
- Monitor for medication side effects such as dizziness or low blood pressure, reporting 14 concerns to the nurse in 2025.
- Maintain accurate documentation in the EHR system for every dose, hold and refusal, passing all monthly chart checks.

Certified Nursing Assistant 10/2021 - 08/2022
Oak Hollow Care Center St. Charles, MO

- Provided bathing, dressing, grooming and feeding care for 12 residents per shift on a 36-bed hall.
- Followed infection control steps during 2 COVID-19 outbreaks, including PPE changes and cohort room set-up.
- Measured vital signs twice per shift and reported changes in condition to the charge nurse right away.
- Built trust with residents and families through interpersonal skills, earning 2 written family thank-you notes.

Patient Care Technician Trainee 03/2021 - 09/2021
Northside Community Hospital St. Louis, MO

- Completed 120 clinical hours on a telemetry unit, taking vital signs and blood sugar for 6 patients per shift.
- Performed CPR compressions during 2 code events under RN direction while in training.
- Charted ADLs and intake in the hospital EHR, with 100% of entries signed off by preceptors.
