

Nathan Pierce

Civil Estimator

Civil Estimator with 6 years in heavy civil and site construction, pricing earthwork, utilities and paving for public and private owners up to \$25M. Works from plans, profiles and survey data in estimating software, Bluebeam and Microsoft Excel, and builds estimates from crew and equipment production rates.

Experience

Civil Estimator 05/2023 - Present
Wasatch Earthworks Salt Lake City, UT

- Site and utility contractor for UDOT, municipalities and private developers along the Wasatch Front.
- Estimate **70** civil bids a year from \$250K to \$25M, adding \$41M in backlog since 2023.
 - Build earthwork takeoffs from survey surfaces and check cut and fill against the grading plan.
 - Calculate water, sewer and storm utility costs in estimating software by pipe size, depth and trench conditions.
 - Secure quotes from 30 subcontractors and suppliers per bid, leveling them in Microsoft Excel.

Assistant Estimator 07/2020 - 04/2023
Great Basin Utilities West Valley City, UT

- Underground utility contractor installing water, sewer and dry utilities.
- Measured pipe, fittings and structures in Bluebeam for 110 bids, keeping quantity errors under 2%.
 - Recorded actual production rates from 20 finished projects for future crew and equipment pricing.
 - Prepared bid forms and bond paperwork for 40 city and county submissions without a rejected bid.
 - Attended pre-bid meetings and site visits, writing notes on access, traffic control and dewatering.

Certificates

OSHA 30-Hour Construction 03/2022
OSHA Training Institute
