SUMMARY

Clinical assistant professor and board-certified pharmacist with 3 years on faculty and 6 years of ambulatory care practice. Divides each week between teaching pharmacotherapy and a primary care clinic that provides diabetes and hypertension management for 300 patients, and precepts 10 PharmD students a year.

EXPERIENCE

Clinical Assistant Professor 07/2023 - Present

Lakeshore University College of Pharmacy Chicago, IL

Non-tenure clinical track with a 50% practice site at a federally qualified health center.

- Teach 14 lecture hours a year in the cardiology and endocrine pharmacotherapy modules for **160** PharmD students.
- Mentor 10 fourth-year students a year as their ambulatory care rotation preceptor, all passing final evaluations.
- Manage 300 patients under a collaborative practice agreement, lowering average A1c 1.4 points in 12 months.
- Chair the 7-member experiential education committee, which rewrote 5 rotation evaluation forms in 2025.

Clinical Pharmacist 07/2020 - 06/2023

Westside Community Health Network Chicago, IL

Network of 6 community health clinics on Chicago's West Side.

- Ran pharmacist-led hypertension visits for 40 patients a week, with 68% reaching blood pressure goal.
- Performed medication reconciliation in Epic at 25 hospital follow-up visits a month, cutting readmissions 12%.
- Trained 18 nurses and medical assistants on insulin pens, inhalers and anticoagulant monitoring.
- Created a statin gap report that started therapy for 210 patients with diabetes in one year.
