EXPERIENCE

Compounding Pharmacy Technician 03/2024 - Present

Front Range Compounding Pharmacy Denver, CO

503A pharmacy compounding hormone, dermatology, veterinary and sterile ophthalmic preparations.

- Produce **70+** non-sterile creams, capsules and suspensions a day from master formulation records.
- Create sterile eye drops and injectables in an ISO 5 hood with aseptic technique, passing every media-fill test.
- Complete pharmaceutical calculations for alligations, ratios and capsule fills, each checked by the pharmacist.
- Check calibration on 3 analytical balances daily and log room temperature and humidity for the state inspector.
- Document lot numbers and beyond-use dates on compounding records for 100% of batches.

Pharmacy Technician 05/2022 - 02/2024

Mile High Family Pharmacy Aurora, CO

Community pharmacy with a small non-sterile compounding lab.

- Filled **200** prescriptions a day for pharmacist verification and handled the pickup window.
- Mixed 25 compounded suspensions and topical preparations a week for pediatric and dermatology patients.
- Reorganized the chemical and base inventory by expiration date, cutting expired-ingredient waste by 30%.
