Tyler Brennan

Comprehensive Optometrist

Denver, CO (303) 555-0172 tyler.brennan@email.com linkedin.com/in/tylerbrennan

SUMMARY

Comprehensive Optometrist with 4 years of full-scope primary eye care, seeing 24 patients a day in private and retail-adjacent practice. Performs refraction, contact lens fitting and dilated exams, and diagnoses and co-manages glaucoma, dry eye and retinal disease using OCT and retinal imaging. Keeps exam notes complete and coded the same day.

EDUCATION

Doctor of Optometry (OD) 05/2022
University of Houston College of Optometry Houston, TX
Optometry

EXPERIENCE

Comprehensive Optometrist 03/2024 - Present
Front Range Eye Care Denver, CO
Doctor in a 3-optometrist practice offering primary, medical and dry eye care to about 9,000 patients.

- Perform **24** comprehensive eye exams a day covering refraction, binocular testing, tonometry and dilated fundus exams.
- Diagnose and manage ocular disease, including glaucoma, macular degeneration and diabetic retinopathy, for 600 patients.
- Launched a dry eye management clinic with meibography and in-office treatments that added $190K in yearly revenue.
- Complete EHR documentation on the day of each visit, scoring 98% on coding audits across 5,200 visits a year.

Optometrist 07/2022 - 02/2024
Mile High Eye Exams & Optical Aurora, CO
Independent doctor's office next to a high-traffic optical store.

- Completed 18 to 22 exams per shift, including walk-in patients and same-day glasses checks.
- Fitted 600+ contact lens patients a year with torics, multifocals and scleral lenses.
- Screened adult patients with retinal imaging and OCT, catching 14 retinal tears sent for urgent repair.
- Talked patients through exam results and lens options, lifting optical capture from 52% to 66%.

Optometry Extern 01/2022 - 04/2022
Rocky Mountain Eye Specialists Colorado Springs, CO
Final-year rotation in a medical and surgical eye practice.

- Examined 300 patients across cataract, glaucoma and retina clinics under attending doctors.
- Ran pre-operative biometry and topography for 60 cataract surgery patients.
- Wrote co-management letters to referring optometrists after each surgical visit.
