SKILLS

- Ventilator Management
- Rapid Sequence Intubation
- Blood Product Administration
- Point-of-Care Ultrasound
- Hemodynamic Monitoring
- Fixed-Wing Transport
- High-Altitude Physiology
- Critical Care Transport
- Critical Thinking

EDUCATION

Associate of Applied Science
05/2016
Arapahoe Community College
Littleton, CO
Paramedicine

CERTIFICATES

Certified Flight Paramedic (FP-C)
09/2021
International Board of Specialty Certification

Certified Critical Care Paramedic (CCP-C)
11/2019
International Board of Specialty Certification

Nationally Registered Paramedic (NRP)
06/2016
National Registry of Emergency Medical Technicians

SUMMARY

Critical care flight paramedic with 10 years as a paramedic, 3 of them in ground critical care and 5 in rotor-wing and fixed-wing transport. Experienced with blood product administration, ventilator management and high-altitude physiology. Holds both FP-C and CCP-C.

EXPERIENCE

Critical Care Flight Paramedic
03/2021 - Present

Front Range Air Medical — Denver, CO

Air medical program running two helicopters and one fixed-wing aircraft across the Rocky Mountain region.

- Treat patients on about **200** rotor-wing and fixed-wing missions a year, including mountain trauma and long-distance ICU transfers.
- Administer blood products in flight under protocol, giving whole blood or packed cells on 40+ hemorrhage cases.
- Perform point-of-care ultrasound for eFAST exams and line placement, documenting findings for receiving trauma teams.

Critical Care Paramedic
05/2018 - 02/2021

Rocky Mountain Critical Care Transport — Aurora, CO

Ground mobile ICU service for hospitals along the Front Range.

- Completed about 300 ICU transfers a year with intubated and multi-drip patients.
- Adjusted ventilators and titrated infusions using hemodynamic monitoring and arterial blood gases.
- Wrote the service's transport ventilator checklist, now used on all 9 critical care units.

Paramedic
06/2016 - 04/2018

Cherry Creek Ambulance — Englewood, CO

911 ALS service in the south Denver suburbs.

- Responded to about 1,300 911 calls a year as lead paramedic on an ALS unit.
- Performed rapid sequence intubation and advanced airway procedures under protocol.
- Mentored 5 new EMTs through their first 3 months on the ambulance.
