EXPERIENCE

Critical Care Transport Paramedic

Piedmont Critical Care Transport • Charlotte, NC

09/2022 - Present

Ground critical care transport service working with a nurse partner for hospitals across the Carolinas.

- Transport about **300** ICU-level patients a year, including intubated, post-cardiac-arrest and balloon pump patients.
- Manage transport ventilators, IV pumps and invasive pressure monitoring on transfers lasting 2 to 4 hours.
- Review referring charts, labs and imaging before departure and call report to the receiving ICU, keeping bedside handoffs under 10 minutes.
- Verify mobile ICU equipment and medication stock each shift, with no missing items found on 24 monthly audits.

Paramedic

Queen City Medical Transport • Charlotte, NC

06/2018 - 08/2022

ALS ambulance service for county 911 overflow and hospital transfers.

- Provided patient assessment and ALS treatment on about 1,300 emergency calls a year.
- Scored 98% on quarterly protocol compliance chart reviews for 4 consecutive years.
- Interpreted 12-lead ECGs in the field and activated the cath lab directly for confirmed STEMI patients.
