

Aisha Bello

CT Technologist

ARRT-registered CT Technologist with 5 years of imaging experience, including 3 years running CT scans in a Level II trauma hospital at 25-30 patients per shift. Performs trauma, stroke, angiography and contrast CT procedures, starts IVs by venipuncture, and applies ALARA dose protocols and radiation safety checks on every scan.

Experience

CT Technologist

Peachtree Memorial Hospital • Atlanta, GA • 08/2023 - Present
Level II trauma center with a 24-hour stroke program and 2 CT rooms.

- Complete **25-30** CT scans per shift, using cross-sectional anatomy to plan trauma, CTA and abdomen-pelvis studies.
- Run code stroke CT procedures on 2 CT scanners, reaching images in a median 14 minutes against a 20-minute goal.
- Apply weight-based dose protocols and ALARA shielding, keeping CTDIvol within ACR reference levels on 98% of audited exams.
- Establish IV lines by venipuncture and load power injectors for contrast studies, with a 95% first-attempt success rate.

Radiologic Technologist

Fulton Ridge Medical Center • Marietta, GA • 06/2021 - 07/2023
290-bed hospital; cross-trained into CT during the second year.

- Performed 30+ radiographic exams per shift in the ED and inpatient units, including portable and OR imaging.
- Cross-trained on a 64-slice scanner and logged all 125 clinical procedures required for the ARRT CT exam.
- Checked every image in PACS for positioning and motion before release, keeping repeats below 4%.
- Partnered with ED nurses to transfer and position trauma patients safely, with zero patient falls in 2 years.

Patient Transporter

Classic City Medical Center • Athens, GA • 08/2019 - 05/2021
Part-time role while completing the radiologic technology program.

- Moved 25-30 patients per shift between units, imaging and surgery by bed, stretcher and wheelchair.
- Checked two patient identifiers and isolation status before every transport, with zero wrong-patient errors.
- Delivered STAT specimens to the lab within the 10-minute target on 97% of runs.
