SUMMARY

Database Migration Specialist with 8 years of experience at Microsoft (Azure Migrate team) and Target Corporation, executing zero-downtime SQL Server, Oracle, and MySQL migrations to Azure SQL and Snowflake. Led 14 enterprise migration projects totaling 85 TB of data, achieved 100% data fidelity across all migrations, and hold Microsoft Azure Database Administrator Associate and AWS Database Specialty credentials.

EXPERIENCE

Senior Database Migration Engineer
April 2020 - Present

Microsoft (Azure Migrate)
Redmond, WA

- Lead technical execution of 14 enterprise database migration engagements (combined 85 TB data) from SQL Server on-premises to Azure SQL Managed Instance and Azure SQL Database
- Developed automated schema conversion and validation framework using SQL Server Migration Assistant (SSMA) + custom T-SQL diff scripts, achieving 100% data fidelity across all migrations
- Designed minimal-downtime cutover strategy using log shipping + Azure DMS, reducing average migration maintenance window from 6 hours to 35 minutes for 8 critical OLTP systems
- Produced Azure migration runbooks adopted by 200 Microsoft FastTrack engineers; estimated to accelerate 500+ future customer migrations
- Resolved 180+ compatibility issues during Oracle-to-Azure SQL migrations, including cursor refactoring, sequence-to-identity conversions, and implicit data-type mismatch remediation

Database Migration Specialist
June 2016 - March 2020

Target Corporation
Minneapolis, MN

- Executed migration of 120 legacy SQL Server 2008/2012 databases to SQL Server 2019 during 3-year modernization program; zero data loss incidents across 40 TB migrated
- Built Python-based schema delta tool comparing source and target DDL; reduced pre-migration validation time from 2 weeks to 3 days per database cluster
- Led Oracle 11g to PostgreSQL migration for 6 non-critical inventory management systems, reducing Oracle licensing costs by $280K annually

Junior DBA
August 2014 - May 2016

US Bancorp
Minneapolis, MN

- Supported 4 SQL Server upgrade projects (2008 R2 → 2014); executed pre/post migration validation scripts across 25 databases

PROJECTS

Database Migration Project
Jan 2019 - Jun 2019

Lead Database Migration Specialist

Migrated a large-scale database from Oracle to SQL Server, resulting in 99.9% data integrity and 25% reduction in migration time.

SQL Server • Oracle • MySQL

Data Warehouse Development
Jun 2016 - Dec 2016

SQL Developer

Designed and implemented a data warehouse for a client, resulting in 25% improvement in data insights and 15% reduction in reporting time.

SQL Server • SSIS • SSRS

SKILLS

SQL Server Migration Assistant (SSMA) | Azure Database Migration Service (DMS) | T-SQL / SQL Server 2022 | Oracle to PostgreSQL Migration | Schema Conversion & Validation | Log Shipping / Transactional Replication | Python (Migration Tooling) | AWS Database Migration Service

EDUCATION

B.S. May 2014
University of Minnesota Minneapolis, MN
Database Administration GPA: 3.6

LANGUAGES

English ●●●●●
Spanish ●●●○○

CERTIFICATES

Microsoft Certified: Azure Database Administrator Associate (DP-300)

Microsoft · November 2022

Validates skills in implementing, managing, and operating data management systems on SQL Server and Azure SQL Database.

AWS Certified Database Specialty

Amazon Web Services · April 2021

Validates expertise in designing, recommending, and managing AWS database solutions including RDS, Aurora, and DMS.

Oracle Database 19c Certified Associate (OCA)

Oracle · September 2019

Validates foundational expertise in Oracle SQL, PL/SQL, and database administration fundamentals.
