Summary

Results-driven Director of Geology with 10+ years of experience in leading cross-functional teams, driving business growth, and developing strategic geological plans. Proven track record of delivering high-impact projects, improving operational efficiency, and fostering a culture of innovation and collaboration.

Experience

Director of Geology

Jan 2018 - Present

GeoTech Inc.

Houston, TX

Leader of the geology department, responsible for developing and implementing geological strategies, managing budgets, and overseeing a team of 10 geologists.

- Developed and implemented a comprehensive geological plan, resulting in a 25% increase in oil reserves and a 15% reduction in operational costs.
- Led a team of geologists in the exploration and development of new oil fields, resulting in the discovery of 10 million barrels of oil equivalent.
- Collaborated with cross-functional teams to improve operational efficiency, reducing drilling time by 30% and increasing production rates by 20%.
- Mentored and trained junior geologists, resulting in a 90% retention rate and a significant increase in team productivity.

Senior Geologist

Jun 2012 - Dec 2017

EnergyCorp

Denver, CO

Senior geologist responsible for leading geological projects, conducting research, and providing technical guidance to junior geologists.

- Conducted comprehensive geological analyses, resulting in the identification of 5 million barrels of oil equivalent in a previously unexplored region.
- Developed and implemented a geological modeling technique, resulting in a 40% reduction in drilling costs and a 25% increase in production rates.
- Collaborated with engineers to optimize drilling and production operations, resulting in a 15% increase in overall efficiency.
- Presented research findings at industry conferences, resulting in the publication of 5 peer-reviewed articles and a significant increase in professional reputation.

Strengths

Leadership

Proven ability to lead cross-functional teams and drive business growth.

Geological Expertise

Extensive knowledge of geological principles, techniques, and software.

Communication

Excellent communication and presentation skills, with the ability to effectively convey complex geological concepts to non-technical stakeholders.

Skills

Geological Modeling

Seismic Interpretation

Drilling and Production Operations

Team Management

Communication

Languages

English

Native

Spanish

Fluent

Education

Ph.D.

2008 - 2012

Stanford University

Stanford, CA

Geology

3.8/4.0

B.S.

2004 - 2008

University of Texas

Austin, TX

Geology

3.5/4.0

Certificates

Certified Petroleum Geologist

2015

American Association of Petroleum Geologists

Certified petroleum geologist with expertise in geological modeling, seismic interpretation, and drilling and production operations.

Awards

Outstanding Geologist Award

2018

Society of Exploration Geophysicists

Received the outstanding geologist award for contributions to the field of geology, including the development of a comprehensive geological plan and the discovery of 10 million barrels of oil equivalent.
