Summary

Electrical foreman with 12 years in commercial and healthcare construction, now directing crews of up to 28 electricians on a $14M hospital tower package. Plans look-aheads and labor in Excel, reviews blueprints and RFIs with the general contractor, and runs a site that follows OSHA safety standards with zero lost-time injuries.

Experience

Electrical Foreman 08/2021 - Present

Cumberland Ridge Electric Nashville, TN

Foreman for a 300-person electrical contractor on healthcare and commercial projects.

- Direct crews of up to **28** electricians on a $14M hospital tower electrical package.
- Plan 3-week look-aheads in Excel and track labor hours, finishing the last 2 projects 4% under budget.
- Hold daily OSHA safety standards talks and weekly audits across 210,000 hours with zero lost-time injuries.
- Review blueprints and RFIs with the general contractor, resolving 120+ field conflicts before installation.

Journeyman Electrician 03/2014 - 07/2021

Harpeth Valley Electrical Franklin, TN

Journeyman and crew lead on schools, offices and medical buildings.

- Led 6-person crews on schools and office buildings, installing switchgear up to 3,000 amps.
- Tested feeders and grounding with megohmmeters and other testing equipment before energizing.
- Troubleshot fire alarm and lighting control systems at commissioning, closing punch lists on 9 projects.
- Coached 10 apprentices on conduit bending and NEC articles ahead of their exams.
