

SUMMARY

Emergency department technician and nationally registered EMT with 5 years in emergency care, 3 of them in a 48-bed Level II trauma ED. Handles phlebotomy, peripheral IVs, EKGs, POC testing, splinting and wound care for 20 to 25 patients a shift, and gives CPR during codes and trauma activations.

SKILLS

Phlebotomy • Peripheral IVs • EKGs • POC Testing • CPR • Splinting • Wound Care • Vital Signs • EMR
Critical Thinking

EXPERIENCE

Emergency Department Technician

Sloan Lake Medical Center

05/2023 - Present

Denver, CO

Level II trauma center; 48-bed emergency department with 85,000 visits a year.

- Perform phlebotomy and place peripheral IVs on **20** to 25 patients a shift, with 90% first-stick success.
- Record 12-lead EKGs within 10 minutes of arrival for chest pain patients, meeting the goal 96% of the time.
- Run POC testing for glucose, troponin and urine pregnancy, entering results in the EMR within 5 minutes.
- Support 15+ trauma activations and codes a month with CPR, splinting and wound care.

Emergency Medical Technician

Colfax Ambulance Service

06/2021 - 04/2023

Aurora, CO

Private 911 and interfacility ambulance service.

- Responded to 10 to 12 calls a shift, assessing patients and giving basic life support en route.
- Recorded vital signs, history and treatments in the electronic patient care report before each handoff.
- Transferred patients by stretcher and stair chair on 2,000+ transports with no patient or crew injuries.
- Checked oxygen, suction and the cardiac monitor at the start of every shift, logging each check.
