EXPERIENCE

Field Clinical Specialist 02/2023 - Present
Gulf Coast Cardiac Devices Houston, TX

Covers pacemaker, ICD and loop recorder cases for 11 hospitals in the Houston area.

- Support **35** implant and follow-up cases a month, handling pacemaker and ICD programming at the table.
- Trained 140 nurses and techs on remote monitoring setup and device checks across 11 hospitals.
- Reduced device clinic wait times 30% with a Salesforce case calendar shared with 3 physician groups.
- Partner with 4 sales representatives on account growth, adding to a 21% rise in territory implants in 2025.

Cardiovascular Technologist 06/2020 - 01/2023
Bayou City Heart Institute Houston, TX

Cath and electrophysiology lab technologist at a 400-bed heart hospital.

- Monitored ECG and hemodynamics during 8 cath and EP procedures a day and flagged arrhythmias to physicians.
- Performed 25 device interrogations a week in the device clinic, using cardiac anatomy knowledge to spot lead issues.
- Documented procedure data for 2,000 cases a year with zero registry rejections.
- Delivered clinical training on lab safety and sterile setup to 12 new hires and students.
