02/2025
Mine Safety and Health Administration

SUMMARY

Field service mechanic with 5 years repairing heavy equipment on mine, quarry and construction sites across Montana and Wyoming. Works on hydraulics, diesel engines and electrical systems from a service truck, reads schematics to find faults fast, and keeps preventative maintenance on schedule for 40 contract machines.

EXPERIENCE

Field Service Mechanic

05/2023 - Present

Big Sky Heavy Equipment

Billings, MT

Construction and mining equipment dealer running 12 field service trucks.

- Repair excavators, dozers and haul trucks on customer sites, averaging **42** billed hours a week.
- Diagnose hydraulics and electrical systems faults with schematics, pressure gauges and laptop diagnostics.
- Perform preventative maintenance on 40 machines under contract, holding fleet availability above 93%.
- Rebuild final drives, cylinders and pneumatic brake parts, saving customers about \$60K a year in new parts.

Diesel Mechanic

06/2021 - 04/2023

Yellowstone Aggregates

Laurel, MT

Quarry and ready-mix producer with 70 pieces of heavy equipment.

- Maintained diesel engines on **25** loaders, crushers and mixer trucks.
- Replaced injectors, turbochargers and starters, cutting road calls by 30% in one year.
- Welded cracked buckets and frames, returning 15 machines to work without outside shops.
- Recorded work and parts in the fleet maintenance system for DOT inspections.
