Summary

Field service millwright with 6 years in the trade, the last 3 traveling to customer plants to install, repair and commission conveyors, crushers and sawmill equipment. Handles welding, rigging and laser alignment on site, writes service reports the same day, and acts as the main contact for plant maintenance teams. Travels up to 75%.

Experience

05/2023 - Present
Birmingham, AL

Field Service Millwright

Southern Bulk Handling Systems

OEM of conveyors and crushers for aggregate, cement and mining plants across the Southeast.

- Install conveyors and crushers at **35** customer sites across 9 states, leading commissioning on 12.
- Diagnose belt tracking, gearbox and bearing failures on service calls, fixing most in one visit.
- Fabricate chutes and supports with field welding, avoiding return trips on 80% of jobs.
- Write service reports with photos and parts lists within 24 hours, giving customers a clear repair record.

04/2021 - 04/2023
Tuscaloosa, AL

Millwright

Black Warrior Lumber

High-production pine sawmill and planer mill.

- Aligned saw arbors and edger shafts with laser alignment tools, raising lumber recovery by 2%.
- Rigged and replaced debarker and chipper components during 10 weekend shutdowns.
- Rebuilt hydraulic cylinders and gearboxes on log carriages, cutting outside shop spend by \$40,000.
- Greased and inspected 150 bearings on a weekly route, preventing unplanned stops on the planer line.

06/2020 - 03/2021
Helena, AL

Maintenance Helper

Cahaba Aggregates

Limestone quarry and crushing plant.

- Replaced worn conveyor idlers and belt splices on 15 conveyors under a plant millwright.
- Prepared crusher liners and wear parts for 6 planned shutdowns.
- Welded wear plates on 20 chutes and hoppers, extending liner life by about 4 months.
