SUMMARY

Firefighter Paramedic with 6 years in fire-based EMS, including 4 years as a paramedic on an engine company handling 3,000 calls a year. Provides advanced life support with ACLS, PALS, 12-lead ECG interpretation, IV therapy and advanced airway management. Certified Firefighter I and II, and works structure fires, vehicle extrication and rescue operations with the same crew.

EXPERIENCE

Firefighter Paramedic

06/2022 - Present

Delta Oaks Fire Protection District — Elk Grove, CA

Paramedic on a 4-person ALS engine in a 7-station suburban district.

- Respond to about **3,000** calls a year on a paramedic engine, roughly 70% of them medical emergencies.
- Administer ALS care including IV therapy, cardiac monitoring and airway management for 50+ critical patients a month.
- Transmit 12-lead ECG readings from the field to the cath lab, cutting door-to-balloon times by 15 minutes.
- Perform fire suppression, ventilation and vehicle extrication at working fires and crash scenes as a crew member.
- Document patient care in the ePCR system with a 99% QA compliance rate over 2 years.

Firefighter EMT

07/2020 - 05/2022

Placer Foothills Fire District — Auburn, CA

EMT on a 3-person engine covering wildland interface and highway calls.

- Responded to 1,600 calls a year, including vegetation fires, highway crashes and swift water rescues.
- Completed a 1,200-hour paramedic program at night, finishing the field internship with **250** ALS contacts.
- Maintained engine equipment, SCBA and medical supplies through daily and weekly checks.
- Taught hands-only CPR to 400 residents at district open houses and school events.
