SUMMARY

Concrete Foreman with 9 years in commercial concrete, the last 4 running crews of up to 18 on tilt-wall and elevated slab work. Plans daily crew scheduling from the three-week look-ahead, reads blueprints and checks formwork before every pour. Holds crews to OSHA safety regulations and quality control checks that keep rework low.

SKILLS

Concrete Formwork • Rebar Placement • Blueprint Reading • Safety Regulations • Crew Scheduling
Quality Control • Laser Level • Microsoft Excel • Leadership • Problem Solving

EXPERIENCE

Foreman

02/2022 - Present

Gulf Coast Concrete Contractors

Houston, TX

Concrete subcontractor for warehouses, schools and mid-rise buildings across the Houston region.

- Lead a crew of up to **18** carpenters and finishers on tilt-wall warehouses totaling 1.4M sq ft.
- Set up concrete formwork and rebar placement for 22 elevated slab pours with zero failed inspections.
- Run daily safety talks and site walks under OSHA safety regulations, with no lost-time injuries in 4 years.
- Plan crew scheduling and material orders in Microsoft Excel, finishing the last 3 jobs 6 to 10 days early.

Lead Concrete Carpenter

06/2019 - 01/2022

Bayou City Structures

Pasadena, TX

Structural concrete contractor for parking garages and medical buildings.

- Built and stripped gang forms for a 6-level, 900-space parking garage on a 4-day floor cycle.
- Checked elevations with a laser level and string lines, holding slab tolerance within 1/8 inch.
- Trained 7 new carpenters on blueprint reading, form layout and safe use of power tools.
- Reported quality control issues to the foreman daily and corrected 30+ form and embed errors before pours.

Concrete Carpenter

04/2017 - 05/2019

Lone Star Foundations

Houston, TX

Residential and light commercial foundation contractor.

- Formed and poured 250+ slab-on-grade foundations for production homes and small retail buildings.
- Installed anchor bolts, sleeves and vapor barrier to plan before each city inspection.
- Finished 9 retail building slabs with a ride-on power trowel and passed every flatness test.
