Aisha Mensah

Front End React Developer

Atlanta, GA (404) 555-0124 aisha.mensah@email.com linkedin.com/in/aishamensah

SUMMARY

Front End React Developer with 4 years building React and TypeScript apps, from Next.js content sites to data-heavy dashboards. Manages state with Redux Toolkit and React Query, styles with Tailwind CSS, and tests with Jest and React Testing Library. Raised Core Web Vitals pass rates to 95% on a site with 2M monthly visits.

EXPERIENCE

Front End React Developer

06/2023 - Present

Ponce Street Media — Atlanta, GA

Digital publisher running 6 lifestyle sites with 2 million monthly visits.

- Build Next.js pages and React components for sites with **2M** monthly visits.
- Improve Core Web Vitals from 61% to 95% passing URLs by fixing image loading and layout shifts.
- Refactor shared editor state into Redux Toolkit slices, removing 25 prop-drilling chains.
- Write Jest and React Testing Library tests for every new component, keeping CI runs under 6 minutes.

Junior Front End Developer

07/2022 - 05/2023

Chattahoochee Health Apps — Atlanta, GA

Startup building patient intake and check-in tools for outpatient clinics.

- Developed React patient intake forms in JavaScript used by **40** clinics.
- Styled screens with Tailwind CSS from Figma files, matching the design system on first review.
- Connected forms to REST APIs with React Query, cutting duplicate network calls by 60%.
- Converted 30 class components to hooks ahead of the TypeScript migration.

Web Developer (part-time)

08/2020 - 05/2022

Midtown Code Collective — Atlanta, GA

Student-run studio building websites for Atlanta nonprofits.

- Delivered **9** nonprofit sites in React and JavaScript, each with a donation or volunteer form.
- Migrated 3 sites from jQuery to React hooks, cutting page weight by 35%.
- Partnered with designers in Figma on a shared Tailwind CSS theme used across every project.
- Reviewed 50+ pull requests from newer student developers on GitHub.

SKILLS

- **React**
- **TypeScript**
- **JavaScript**
- **Next.js**
