Worker Protection Standard Training

05/2024

Washington State University Extension

SUMMARY

Fruit picker with 3 seasons in north central Washington cherry and apple orchards. Fast with a picking bag and ladder safety, careful with bin filling and fruit grading so loads pass the packing house check. Also does winter pruning and spring thinning to stay with one grower year-round.

EXPERIENCE

Fruit Picker 06/2024 - Present

Columbia Bluff Orchards Wenatchee, WA

800-acre orchard growing Honeycrisp, Gala and Bing cherries.

- Complete apple picking on piece rate, averaging **8** bins a day in Gala and Honeycrisp blocks with bruise rates under 2%.
- Handle cherry harvest by hand with stems on, filling about 30 lugs a day over 4 weeks.
- Maintain ladder safety on 10- and 12-foot orchard ladders with no injuries in 3 seasons.
- Complete winter pruning and blossom thinning on about 15 acres each year under the crew lead.

Seasonal Farm Worker 07/2023 - 10/2023

Chelan Valley Fruit Co. Chelan, WA

Pear and apple orchard; first harvest season.

- Filled 25+ pear bins a week evenly to the line, and the packing house accepted every load.
- Sorted culls and windfall fruit for fruit grading at row ends, keeping bin cull rates under 5%.
- Staged ladders and picking bags for a 10-person crew so the tractor driver could line up bins without delays.
- Picked about 6 bins a day of Bartlett and Anjou pears by the last week of the season.
