Summary

GIS Coordinator with 6 years of experience running shared GIS services for cities and a fire district, from ArcGIS Online administration to field data collection. Coordinates requests from 14 departments, maintains addressing and street centerlines for 911 dispatch, and builds Survey123 and Field Maps workflows. Plans work openly and keeps staff and vendors informed.

Experience

04/2022 - Present
Boise, ID

GIS Coordinator

Snake River Valley Regional Services

Shared-services agency providing GIS to 3 cities and a fire district.

- Coordinate **350** GIS requests a year from 14 departments, setting priorities with managers every Monday.
- Maintain addressing and street centerline data for 911 dispatch, posting new addresses within 48 hours of approval.
- Administer ArcGIS Online and ArcGIS Enterprise for 210 users, with quarterly license and content clean-ups.
- Build Survey123 and Field Maps workflows for sign, hydrant and sidewalk inspections used by 60 field workers.

09/2020 - 03/2022
Meridian, ID

GIS Analyst

Sawtooth Civil Engineers

Civil engineering firm focused on roads, drainage and land development.

- Produced 200 project maps in ArcGIS Pro for the planning, design and construction phases of road projects.
- Wrote Python and SQL scripts to load 5 years of crash data and map high-risk intersections for 2 cities.
- Organized project data in a shared file geodatabase and documented naming rules for 18 engineers.
- Collected GPS locations and condition notes for 1,100 culverts during the summer field season.
