SUMMARY

Inpatient pharmacist with 4 years at Oregon hospitals, covering order verification, the IV room and code response for a 360-bed medical center. Strong in renal dosing, anticoagulation and pharmacokinetics. Comfortable working independently on overnight shifts and compassionate with patients and families during discharge counseling.

EXPERIENCE

Inpatient Pharmacist

09/2023 - Present

Willamette Heights Medical Center — Portland, OR

Inpatient pharmacist on rotating day and overnight shifts at a 360-bed hospital.

- Handle order verification for about **280** orders a shift in Epic, checking renal dosing, allergies and interactions.
- Respond to about 8 rapid response and code blue calls a month, preparing emergency drugs within 2 minutes.
- Manage warfarin and heparin dosing for 20+ patients a day under the pharmacy anticoagulation protocol.
- Resolve overnight drug information calls alone, closing 90% without paging the on-call clinical pharmacist.

Staff Pharmacist

07/2022 - 08/2023

Columbia Gorge Hospital — The Dalles, OR

Staff pharmacist at a 49-bed critical access hospital.

- Covered inpatient, emergency department and clinic pharmacy needs as one of **3** pharmacists.
- Ran pharmacokinetics dosing for vancomycin and aminoglycosides, about 10 consults a week.
- Trained 12 nurses on new Pyxis cabinets and smart pump drug library updates.

Pharmacy Intern

06/2019 - 06/2022

Rose City Hospital Pharmacy — Portland, OR

Part-time hospital internship during pharmacy school.

- Prepared **50+** IV admixtures a shift using aseptic technique under pharmacist checks.
- Conducted medication reconciliation interviews for 25 admitted patients a week.
- Checked Pyxis restock trays for 14 nursing units each morning before delivery.
