SUMMARY

Inpatient pharmacy technician with 4 years in hospital pharmacies of 250 and 520 beds, working evening and overnight shifts. Fills automated dispensing cabinets, compounds IV admixtures with aseptic technique and reads physician orders fluently in medical terminology. Delivers stat doses on time and keeps controlled substance counts exact.

EXPERIENCE

Inpatient Pharmacy Technician

02/2024 - Present

Lakeshore Medical Center — Chicago, IL

520-bed hospital with a 24/7 inpatient pharmacy and satellite ICU pharmacy.

- Supply **45** automated dispensing cabinets across 14 units per shift, holding stock-outs under 1%.
- Produce about 80 IV admixtures and antibiotic syringes per evening shift using aseptic technique.
- Deliver stat and first doses to the ICU and emergency department within 30 minutes on 96% of runs.
- Interpret orders in the electronic health record with medical terminology to match drug, strength and route on 200+ fills.
- Check and exchange 12 code carts and malignant hyperthermia kits a month, recording lot numbers and expiration dates.

Pharmacy Technician

06/2022 - 01/2024

Northside Community Hospital — Evanston, IL

250-bed community hospital pharmacy.

- Repackaged **2,000** unit-dose tablets a week on the packaging machine with barcode labels.
- Counted the controlled substance vault weekly with the pharmacist, closing every count without a variance.
- Answered nurse calls for missing doses and traced 90% of them to cabinet or delivery errors within one shift.
