Atlanta, GA
Electronics Technology

EXPERIENCE

Installation Technician 03/2024 - Present
Peachtree Integrated Security Atlanta, GA
Field technician for a commercial security integrator serving 1,200 client sites.

- Install access control on **40** doors a month, fitting card readers, maglocks, strikes and exit devices.
- Position and aim IP cameras and configure recorders for CCTV installation at offices and K-12 schools.
- Lead troubleshooting on failed readers and panels, closing 90% of service calls on the first visit.
- Complete cable termination on Cat6 and composite runs, labeling each to the as-built drawings.

Low Voltage Technician 05/2022 - 02/2024
Chattahoochee Cable & Data Marietta, GA
Technician for a structured cabling and alarm installer.

- Pulled low-voltage wiring through finished walls and ceilings, roughly 5,000 feet a month.
- Installed intrusion alarm systems with motion and door sensors in 120 homes and small businesses.
- Tested data drops with a cable certifier, keeping rework under 2% of all runs.
- Explained keypads and apps to owners at handoff, which cut how-to callbacks by a third.
