## INSTALLER

San Antonio, TX • (210) 555-0172 • [luis.navarro@email.com](mailto:luis.navarro@email.com) • [linkedin.com/in/luisnavarro](https://www.linkedin.com/in/luisnavarro)

### Summary

Installer with 5 years of cabinet installation and flooring installation in occupied San Antonio homes, with about 450 kitchens, baths and rooms finished. Works independently with hand and power tools, from measuring and layout through trim carpentry and the final walk-through. Tracks materials in Excel and handles problem solving on out-of-square rooms on site.

### Experience

#### Installer

02/2023 - Present

Alamo Heights Home Interiors

San Antonio, TX

*Solo installer for a kitchen and bath remodeling showroom with 9 field staff.*

- Install cabinets, vanities and vinyl plank flooring in **3** homes a week, averaging under 1 callback a month.
- Measure and lay out each room with a laser level before install, catching out-of-square walls before cabinets go up.
- Cut and scribe crown, toe kick and trim carpentry on site with a miter saw and hand tools.
- Review finished work and care steps with homeowners, holding a 4.8-star customer service rating on 150 reviews.

#### Flooring Installer

06/2021 - 01/2023

Mission Trail Flooring

San Antonio, TX

*Installer on a 6-crew residential flooring subcontractor serving production builders.*

- Handled tile setting, hardwood and carpet installs in new-construction homes, about 1,500 sq ft a week.
- Prepped subfloors by grinding, leveling and patching, reducing hollow-tile callbacks by 40%.
- Logged material counts and job hours in Excel, trimming overage orders 10% per job.
- Fitted reducers and thresholds at doorways and stairs where floor heights did not match.
