## Summary

Highly motivated and detail-oriented Intern Biologist with a strong foundation in molecular biology and data analysis. Proven ability to work effectively in a team and communicate complex scientific information to non-technical audiences. Seeking an internship opportunity to apply my skills and knowledge in a real-world setting and contribute to the advancement of biological research.

## Experience

### Research Assistant

Jun 2022 - Aug 2022

ABC Research Institute

New York, USA

Conducted research on plant species identification using molecular biology techniques, resulting in a 95% accuracy rate in species identification.

- Collected and analyzed plant samples using PCR and DNA sequencing techniques
- Developed and implemented a database to store and manage plant species information, increasing data organization efficiency by 30%

### Environmental Consultant

Jan 2022 - May 2022

XYZ Environmental Consulting

New York, USA

Assisted in the development of environmental impact assessments for construction projects, resulting in a 25% reduction in project costs due to optimized environmental mitigation strategies.

- Conducted field surveys to collect data on local wildlife and ecosystems
- Analyzed data using statistical software and created visualizations to present findings to clients

## Education

New York University

Biology

New York, USA

Aug 2020 - Present

3.8/4.0

## Skills

Molecular Biology • Data Analysis • Communication • Teamwork
