Kevin Tran

Java Developer

Charlotte, NC · (704) 555-0164 · kevin.tran@email.com · linkedin.com/in/kevintran

SUMMARY

Java developer with 6 years of experience building Spring Boot services and REST web services for banking and insurance systems. Writes Hibernate data layers on Oracle, covers code with JUnit tests, and keeps Maven builds and release pipelines healthy. Works with business analysts and QA to turn requirements into reliable, well-tested releases.

EXPERIENCE

Java Developer

05/2022 - Present

Piedmont Trust Bank

Charlotte, NC

Core deposits and payments platform team serving 1.1M retail customers.

- Developed Spring Boot microservices for ACH payments that process **1.8M** transactions a day.
- Rewrote Hibernate mappings and Oracle queries for monthly statements, cutting generation time by 55%.
- Raised JUnit and Mockito coverage on the payments module from 52% to 85%, halving production defects in a year.
- Built Maven and Jenkins pipelines that let the team release every two weeks instead of once a quarter.

Associate Java Developer

06/2020 - 04/2022

Carolina Claims Services

Raleigh, NC

Claims processing software for workers' compensation insurers.

- Maintained J2EE and JSP claims screens used by 400 adjusters across 6 states.
- Exposed older SOAP and XML web services as REST APIs for three partner insurers.
- Investigated production defects with the support team, keeping open critical tickets under five each month.
- Upgraded 18 modules from Java 8 to Java 11 with no unplanned downtime for adjusters.

Software Developer Intern

05/2019 - 08/2019

Catawba Valley Water Services

Charlotte, NC

Municipal water billing department.

- Created a Java batch job that flagged 2,300 accounts with meter readings outside normal ranges.
- Wrote Oracle SQL reports on late payments and service shutoffs for the customer service team.
- Tested billing screen changes with the QA analyst before each monthly release.

SKILLS

Java • Spring Boot

Hibernate • SQL • Oracle

REST • JUnit • Maven

J2EE • Git
