Qualified Signal Person

NCCCO • 05/2023

SUMMARY

Journeyman millwright with 6 years in the trade, including a 4-year registered apprenticeship, setting and aligning equipment on automotive and power plant projects. Skilled in precision leveling, laser alignment, rigging and structural welding. Reads blueprints and setting plans, and holds an OSHA 30 card and a crane signal person qualification.

EXPERIENCE

Journeyman Millwright

Midwest Industrial Erectors • Detroit, MI
08/2024 - Present

Union millwright contractor for automotive, power and process plants across Michigan and Ohio.

- Set and level **85** press line and conveyor components to 0.002-inch tolerance on an assembly plant retool.
- Align turbine-driven pumps with laser alignment tools during power plant outages, meeting OEM specs on first check.
- Direct 2 apprentices on rigging, anchor layout and grouting, keeping the crew at zero recordable injuries.
- Read setting plans and blueprints to lay out baseplates, catching 3 drawing conflicts before steel arrived.

Millwright Apprentice

Midwest Industrial Erectors • Detroit, MI
08/2020 - 07/2024

Same contractor, rotating across automotive, steel and energy jobsites.

- Installed overhead conveyors and robot bases across 9 jobsites during a 4-year apprenticeship.
- Welded supports and structural steel to AWS D1.1, passing every visual inspection on 2 plant jobs.
- Rebuilt gearboxes and replaced bearings in the shop, logging 8,000 on-the-job training hours.
- Signaled crane picks for setting crews, guiding more than 200 lifts without a dropped or damaged load.

EDUCATION

Associate of Applied Science

Macomb Community College • Warren, MI • 05/2024
Industrial Maintenance Technology
