SUMMARY

Highly motivated and detail-oriented Junior Data Engineer with 2+ years of experience in designing, developing, and deploying scalable data pipelines on AWS. Proven track record of improving data quality by 25% and reducing data processing time by 30% through optimized data architecture and automated data workflows.

EXPERIENCE

Data Engineer Jan 2022 - Present
ABC Corporation New York, USA

Designed and developed data pipelines using AWS services such as S3, Glue, and Redshift, resulting in a 25% improvement in data quality and a 30% reduction in data processing time.

- Developed and maintained data pipelines using Python, Apache Beam, and AWS Glue
- Collaborated with cross-functional teams to design and implement data architecture
- Implemented data quality checks and automated data workflows using AWS Lambda and Apache Airflow

Junior Data Engineer Jun 2020 - Dec 2021
DEF Startups San Francisco, USA

Assisted in the development and deployment of data pipelines using AWS services such as S3, Glue, and Redshift, resulting in a 20% improvement in data quality and a 25% reduction in data processing time.

- Assisted in the development and maintenance of data pipelines using Python, Apache Beam, and AWS Glue
- Collaborated with data scientists to design and implement data models and data visualizations using Tableau and Matplotlib

EDUCATION

Bachelor of Science Sep 2016 - Jun 2020
Stanford University Stanford, USA
Computer Science 3.5/4.0

PROJECTS

Data Pipeline Optimization Mar 2022 - Jun 2022
Lead Data Engineer

Developed and deployed an optimized data pipeline using AWS services such as S3, Glue, and Redshift, resulting in a 30% improvement in data quality and a 35% reduction in data processing time.

AWS S3 • AWS Glue • AWS Redshift • Python • Apache Beam

Data Quality Improvement Sep 2021 - Dec 2021
Data Engineer

Developed and implemented data quality checks and automated data workflows using AWS Lambda and Apache Airflow, resulting in a 25% improvement in data quality.

AWS Lambda • Apache Airflow • Python

SKILLS

Python
Apache Beam
AWS Glue
AWS S3
AWS Redshift
Data Pipeline Optimization
Data Quality Improvement
Collaboration
Communication

LANGUAGES

English Native
Spanish Intermediate

CERTIFICATES

AWS Certified Data Engineer
Mar 2022
AWS

Certified data engineer with expertise in designing, developing, and deploying scalable data pipelines on AWS.

AWARDS

Best Data Engineer Jun 2022
ABC Corporation
Awarded best data engineer for outstanding contributions to the development and deployment of data pipelines.

STRENGTHS

Data Pipeline Optimization
Proven ability to optimize data pipelines for improved data quality and reduced data processing time.

Data Quality Improvement
Proven ability to improve data quality through automated data workflows and data quality checks.
