## Summary

Kitchen utility worker with 2 years in hospital food service, working the dish room, pot sink and tray line for 450 patients and a staff cafeteria. Follows food safety, sanitation and chemical safety procedures, keeps temperature logs complete, and lifts up to 50 lbs through 8-hour shifts. Reliable on early mornings, weekends and holidays.

## Experience

09/2024 - Present
Columbus, OH

### Kitchen Utility Worker

Olentangy General Hospital

450-bed hospital with patient tray service, a staff cafeteria and 3 retail food outlets.

- Process about **1,400** patient trays a day through the dish room conveyor and pot sink with a 4-person crew.
- Record dish machine wash and rinse temperatures 3 times a shift in the temperature logs and cleaning logs for audits.
- Measure cleaning chemicals at the dispensers following SDS sheets and chemical safety training, with no exposure incidents.
- Deliver 20 food carts a day to patient floors on the tray line schedule and return them for sanitizing.

06/2023 - 08/2024
Columbus, OH

### Crew Member

Buckeye Burger Stand

Quick-service restaurant near a university campus with late-night hours.

- Cooked burgers and fries at the grill and fry station during lunch rushes of 200 orders.
- Washed utensils and prep containers between rushes and kept the dish area organized every shift.
- Mopped floors and wiped down the dining room every hour on the evening shift to meet sanitation standards.
- Trained 4 new crew members on station setup, handwashing and food safety basics.
