SUMMARY

Lawn care spray technician with 2 seasons of fertilizer application and weed control routes in central Ohio, treating up to 30 lawns a day. Handles spreader calibration, spots turf disease and grub damage, and leaves clear service notes for every customer. Registered with the Ohio Department of Agriculture and holds a clean driving record.

EXPERIENCE

Lawn Care Spray Technician 03/2025 - Present
Scioto Valley Lawn Care Dublin, OH
Residential lawn care company with about 4,000 customers on a six-step program.

- Apply granular fertilizer and liquid weed control to **25-30** lawns a day on a ride-on spreader-sprayer.
- Monitor spreader calibration and sprayer output each week, tracking product used per 1,000 square feet.
- Diagnose crabgrass, brown patch and grub damage and recommend grub control or aeration, adding 85 fall upgrades.
- Write service notes with watering and mowing tips for each visit, which cut customer complaint calls by 15%.
- Check the truck, tank and safety kit before each shift and pass monthly vehicle checks.

Grounds Crew Member 04/2023 - 10/2024
Hickory Hollow Golf Club Westerville, OH
Seasonal grounds crew on an 18-hole private golf course.

- Mowed greens, tees and fairways on 18 holes before the first daily tee time, starting at 5:30 a.m.
- Raked bunkers and moved cup positions each morning on a 6-person crew, following the superintendent's daily sheet.
- Hand-watered dry spots and reported turf disease such as dollar spot to the superintendent within the hour.
- Refilled divot mix and seed on 10 tee boxes daily and kept the mower fleet fueled and clean.
