Brandon Okafor

Lot Technician

Lot technician with 1 year at a dealership in Indianapolis, keeping 500 vehicles charged, inflated and ready to drive. Handles battery testing, tire inflation and bulb replacement with attention to detail, and logs every unit's location by stock number. Completed an automotive technology certificate at Ivy Tech Community College and an ASE entry-level certification.

Experience

Lot Technician

Circle City Auto Center • Indianapolis, IN • 09/2025 - Present

New and used dealership with about 500 vehicles on a 6-acre lot.

- Test and charge batteries on **60** aged-inventory vehicles a week, so test drives start without jump packs.
- Complete 30 lot work tickets a week, inflating tires, replacing bulbs and topping off fluids on units sales flags.
- Arrange the lot by model and stock number after each truck delivery and update locations in the inventory system.
- Report body damage and warning lights to the used-car manager with photos for every affected unit.

Quick Lube Technician (Part-Time)

Hoosier Express Lube • Indianapolis, IN • 01/2025 - 08/2025

Drive-through oil change shop with 3 service bays.

- Performed 15+ oil changes a shift with filter, fluid and wiper checks.
- Completed tire rotation and tread depth checks, recording results on each customer invoice.
- Explained recommended services in plain terms, raising add-on sales by 10%.
- Inspected engine and cabin air filters on every car in the bay, flagging about 1 in 4 for replacement.
