## SUMMARY

Autonomous and highly organized Home Health LPN with 6 years of experience providing skilled nursing care to medically complex patients in home settings. Expertise in wound care, IV therapy, diabetic management, and care plan coordination. Exceptional time management and patient/family communication skills, managing a caseload of 8-10 home visits daily while maintaining 100% visit documentation compliance.

## EXPERIENCE

LPN - Home Health Mar 2020 - Present  
LHC Group - Dallas Home Health Services Dallas, TX

- Conducted 8-10 skilled nursing home visits daily for patients with CHF, COPD, diabetes, and post-surgical wound care needs
- Maintained 100% visit note completion in Homecare Homebase EHR within 2 hours of visit, achieving zero documentation deficiencies
- Reduced avoidable ER utilization by 33% for a 45-patient caseload through early intervention and patient education on symptom management
- Performed wound assessments, dressing changes, and wound measurements for 15+ patients weekly, contributing to average wound closure within 6 weeks
- Coordinated with home health aides, physical therapists, and attending physicians to ensure seamless care transitions and updated care plans

Licensed Practical Nurse Jun 2018 - Feb 2020  
Amedisys Home Health Care Dallas, TX

- Managed medication administration and education for 35 homebound patients, achieving a 94% medication adherence rate
- Performed catheter care, g-tube management, and phlebotomy during home visits
- Conducted admission assessments and OASIS documentation for new patients under RN supervision
