SUMMARY

Experienced Post-Acute Care LPN with 7 years of skilled nursing and transitional care experience supporting patients recovering from surgeries, strokes, cardiac events, and complex medical conditions. Proficient in IV therapy, wound management, and coordinating safe care transitions from acute hospital settings to skilled nursing facilities and home care. Committed to reducing preventable readmissions through thorough discharge planning and patient education.

EXPERIENCE

LPN - Post-Acute Care Oct 2019 - Present

Genesis Healthcare - Louisville Skilled Nursing Center
Louisville, KY

- Provided post-acute nursing care for 22-26 medically complex patients transitioning from hospital to SNF, administering IV medications, wound care, and tube feedings
- Reduced 30-day hospital readmission rate by 34% through structured discharge education protocols and 48-hour post-discharge phone follow-up program
- Coordinated care transitions with hospital case managers, attending physicians, home health agencies, and family members to ensure continuity of care
- Maintained 99.3% medication accuracy across IV, enteral, and oral medication routes over 5 years
- Performed comprehensive patient assessments using MDS (Minimum Data Set) documentation in PointClickCare with 100% timeliness compliance

Licensed Practical Nurse Mar 2017 - Sep 2019

Baptist Health Louisville Louisville, KY

- Provided acute inpatient nursing care for 18-22 medical-surgical patients per shift, specializing in post-operative cardiac and orthopedic recovery
- Collaborated with discharge planning team to identify high-risk patients and coordinate appropriate post-acute placements
