## SUMMARY

Dedicated Rehabilitation LPN with 6 years of experience supporting patient recovery across post-acute, orthopedic, and neurological rehabilitation settings. Skilled in functional assessment support, medication management, and therapeutic care coordination. Passionate about maximizing patient independence and achieving measurable functional gains in collaboration with physical, occupational, and speech therapists.

## EXPERIENCE

LPN - Rehabilitation Feb 2021 - Present  
Encompass Health Rehabilitation Hospital San Antonio, TX

- Provided direct nursing care for 20-25 rehabilitation patients recovering from strokes, TBIs, joint replacements, and spinal cord injuries
- Administered medications, monitored neurological status, and coordinated pain management protocols, achieving a 4.8/5.0 patient satisfaction score
- Collaborated daily with PT, OT, and SLP teams to monitor functional progress, update care plans, and reinforce therapy exercises during nursing hours
- Reduced average length of stay by 1.2 days through proactive discharge planning and family education on home safety and medication regimens
- Maintained 100% FIM (Functional Independence Measure) documentation accuracy in the Meditech EHR system

Licensed Practical Nurse Mar 2018 - Jan 2021  
CHRISTUS Health - Santa Rosa Hospital San Antonio, TX

- Administered medications and performed wound care for 22 medical-surgical patients per shift, maintaining 99.1% medication accuracy
- Supported post-operative orthopedic patients with mobility assistance, fall prevention, and pain assessment
- Completed thorough shift documentation in Cerner EHR with 98% timeliness compliance
